

CAD & BIM

EROPEX CAD and BIM library

Revit families, 2D DWG and 3D STEP geometry

Contents	RFA, DWG and STEP per article family
Revit version	2021 and newer
Delivery	Download link by e-mail, same working day
Request via	info@eropex.eu or eropex.eu/contact

What the library contains

- Parametric Revit families per fitting family with connectors and article parameters.
- 2D DWG dimension geometry for tender and shop drawings.
- 3D STEP solids for clash detection and prefabrication.
- IFC 4 export set for open BIM workflows.

How to request the library

The full library is 18 MB and is distributed with a project reference so we can notify you when geometry is revised. Send your project name and the families you need to info@eropex.eu, or use the contact form at eropex.eu/contact. Files are normally returned within one working day.
